DETAILED ACTION

Conclusion

This application is in condition for allowance except for the following formal matters:

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character is not mentioned in the description: figure 2, item 221 is not mentioned in the specification. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1, 2, 4-15 and 17-23 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 9 recite:

An underlayer formed of a substantially-chemically-ordered alloy having a tetragonal crystalline structure, the alloy selected from the group consisting of alloys of AuCu, FePt, FePd, AgTi₃, Pt Zn, PdZn, IrV, CoPt and PdCd, said underlayer alloy further comprising at least one element selected from the group consisting of Pd, Fe, Pt, and Rh.

Claim 22 recites:

An underlayer formed of a substantially-chemically-ordered alloy comprising Au and Cu and having a tetragonal crystalline structure and having a thickness between about 10 and 200 Angstroms.

The closest reference, Yoshikawa et al (US Patent Number 6847509), discloses an underlayer that can be made of the disclosed elements, however, does not disclose an underlayer made from an alloy of three individual elements or to the detail as set forth in the claims above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
